INTIMIDATION BACK IN ACTION

Intimidation made a successful return to racing with an impressive victory in a heat of the Holiday Coast Series (400m) at Greyhounds WA Mandurah last Friday.

Last month's Group 1 Adelaide Cup winner clocked the fastest qualifying time of 22.05 to bring up his fifth straight win.

The other heat winners were Just A Piastri (22.31) and Hudson (22.41).

At Cannington the following evening, Sunset Caligula continued his winning ways with a comfortable victory in the 520m Free For All.

From box eight, Sunset Caligula quickly crossed to find the lead and then had the race to himself before rolling on to score by more than two lengths over Hurry Up Eric in 29.64.

TRAINER REGISTRY FOR NEW OWNERS

Greyhounds WA is updating our list of trainers that would like to receive ownership inquiries from the general public.

Increasing ownership, in particular the promotion and creation of syndications, is an important area for industry growth.

The club regularly receives inquiries from the public about how to purchase a greyhound and we hope to match potential owners with suitable and willing trainers.

Furthermore, once we establish a data base of potential owners we aim to allow trainers on the list an opportunity to advertise any ownership opportunities that arise.

If you are a public trainer and would like to be included on the list please contact the office on 6350 4600 or email: dobrien@greyhoundswa.com.au

UPCOMING LOSING SEQUENCE RACES

Thursday	12 November	LSY6 300m
Wednesday	18 November	LSY6 381m
Monday	23 November	LSY6 300m

Reminder that all Losing Sequence races are selected based on the longest losing sequence down to the shortest. Order of Choice ranking is only used to split greyhounds with the same losing sequence.

A minimum of 6 starts since last win to be eligible to nominate.

UPCOMING MASTERS RACES

Tuesday	10 November	P5 400m
Friday	13 November	*POpen 400m
Tuesday	17 November	P5 400m

Reminder that all Masters races are non-penalty to the winner, and in Open Masters and 4/5 Masters outs still count towards dropping a grade.

Has not raced since April due to injury.

Has been downgraded to a Country Sprint Grade 6.

FROM THE STEWARDS

Greyhounds Australasia have issued the following notice (see insert) regarding the commencement of a scientific review of analytical data relating to androstane (5β-androstane-3α,17β-diol) (BaB) in male greyhounds ('BaB Diol').

RWWA Stewards advise that they will be adopting an approach consistent with this notice with respect to any current or future matters relating to this issue. In that regard samples taken will continue to be analysed in accordance with normal practices and procedures and may become subject to inquiry.

Participants are therefore reminded that they remain responsible for complying will all existing rules relating to anabolic androgenic steroids and that action may be taken where appropriate, either before or after, the review is completed

  (1 dog can be Muzzle off, if 2 dogs one must have a Muzzle on. Max 2 dogs)

All trial bookings to be done through Greyhounds WA Admin Office 6350 4600.

STATEMENT ON ANDROSTANE (BaB) IN MALE GREYHOUNDS

2 November 2026

Following consultation with regulatory veterinarians, Controlling Bodies and representatives of approved racing laboratories, Greyhounds Australasia (GA) has commenced a scientific review of analytical data relating to androstane (5β-androstane-3α,17β-diol) (BaB) in male greyhounds. The review forms part of GA's ongoing consideration of the scientific evidence supporting its regulatory framework and does not alter the operation or application of the existing GA Rules.

Analysis of samples will continue under existing processes. As a precautionary administrative measure pending completion of the review, a Controlling Body may determine that the issue of Certificates of Analysis, or the progression of a particular investigation or inquiry, should be deferred. Any such decision does not affect the continuing operation or validity of the GA Rules or the prescribed thresholds.

Laboratories will continue notifying relevant Controlling Bodies of the analytical results, and confirmatory analysis will continue in accordance with existing processes. Controlling Bodies will retain responsibility for determining the appropriate regulatory response to individual matters in accordance with the GA Rules.

The review is confined to the scientific consideration of androstane (BaB) in male greyhounds. It does not alter GAR 140(b), the prescribed threshold contained in that Rule, or the application of the GA Rules to other prohibited substances or conduct, including matters concerning possession, use or administration of a permanently banned prohibited substance.

Participants remain responsible for complying with all existing GA Rules and requirements relating to anabolic androgenic steroids. Those Rules remain in force, and participants should not interpret the commencement of the scientific review, or any administrative deferral of an individual matter, as altering their obligations under the Rules.
